

## **Chitown Champions Wealth Mission 2020 by Coach Roger Franklin**

Forbes Sep 2017 projects that the wealth of Blacks will drop to zero by 2053.  
Forbes also projects that the wealth of Hispanics will drop to zero by 2073.  
Be the change or live on change!

They Beat us,  
They Caught Us,  
**WE TAUGHT US,**  
To read, To fight, To Lead

We progressed  
We invented  
We fought the so-called, GOOD fight of war  
They Beat us,  
They Caught Us,  
**WE TAUGHT US,**  
To stand; To plan; To excel

Defying all odds we created black Wall Street and glimpsed financial freedom  
Hatred - they burned us down

They Beat us,  
They Caught Us,  
**WE TAUGHT US,**  
To peacefully protest To conquest To build homes To save and invest

So They flooded our communities with drugs and guns and prison bound sons  
Hiring more and more... **AND MORE -- boys in blue**  
They Beat us,  
They Caught Us,  
**WE TAUGHT US,**  
To embrace THEIR words of hate, To employ THEIR words that bury our passions and  
destroy our compassion, while killing off our self love

They pumped us full of experimental drugs,  
    while killing off - our **self love!**  
They pumped us full of illegal drugs,  
    while killing off - our **self love!**  
They pumped us full of lead and while we **bled** the blood  
    of despair our fathers disappeared into thin air

We **weave** the hair of other races into our **own**  
And their weight is breaking us **BROKE**  
Broke  
Wait, Wait. Wait!

They?

We!  
We kill us  
We smoke us  
We miss-feed us  
We curse us  
We drug us  
We rape us  
We shoot us  
We **NIG!** -- US  
We **END...** US

They enslaved us  
They jailed us  
They **JAIL** us  
They want us to continue  
to spend without investing and **Rent** without **owning**.  
Playing at life, prioritizing wants over needs and stuff over substance

We are **STRONG** so join us  
We are **STRONG** so join us  
We are **STRONG** so join us
